Full Stack Web Developer with hands-on experience in Next.js, Node.js, Express.js, MongoDB, and TypeScript. Skilled in building responsive, scalable web applications, integrating payment systems, and managing dynamic content with Headless CMS. Passionate about creating user-focused solutions and contributing to collaborative full-stack projects.

EXPERIENCE

Fullstack Web Development

Kathmandu

Internship/Sarvatra inc

Jan, 2026 - Mar, 2026

Completed a 3-month Full Stack Web Development internship at Sarvatra, where I developed responsive web applications using Next.js, Node.js, Express.js, and MongoDB. Implemented dynamic content, payment integrations, state management, and collaborated with the team on production workflows while gaining experience with Headless CMS.

PROJECTS

RWUA – Headless CMS Web Application (Collaborator)

Developed a full-stack web application for a women empowerment project using Next.js, GraphQL, Apollo Client, and Faust.js. Used WordPress Advanced Custom Fields (ACF) to create and manage dynamic content fields, allowing the frontend to display data like text, images, and links automatically. Built a responsive UI and collaborated with the team on backend integration and full-stack features.

Ghumaudulau – Travel Booking Platform

Built a full-stack travel booking platform with Next.js, Node.js, Express.js, MongoDB, and TypeScript. Integrated Stripe payment gateway, created dynamic travel destination pages and blog sections, and implemented a responsive, modern UI/UX for seamless user interaction.

Job Portal – Full Stack Recruitment Platform

Built a full-stack job portal using Next.js, Node.js, Express.js, MongoDB, and TypeScript. Implemented role-based access for employers and job seekers, real-time chat with Firebase + sockets, and Stripe & eSewa payments for monetized job postings and subscription renewals.
